

Be Quantum-Ready

Let's Shape the Future, Faster. Together.

Our Services

- 1 Quantum Advisory**
Quantum strategy, roadmap, quantum awareness, use case funnel
- 2 Accelerated Quantum Computing Innovation**
Quantum computing R&D, POC, Benchmarking
- 3 Quantum-Safe Cybersecurity**
From Quantum safe assessment to Quantum safe migration

Areas of Expertise

- ✓ Quantum Optimization
- ✓ Quantum Machine Learning
- ✓ Quantum Safe Cryptography
- ✓ Quantum Simulation

Skilled Workforce

- ✓ PhD Level Research Leaders
- ✓ Quantum Research Engineers
- ✓ Quantum Native Developers
- ✓ Quantum-Safe Experts

Academic Research Hubs

Partners

Ready Quantum Prototypes and Base models

Post-Quantum Cryptography

Quantum-Safeguard Discovery and Assessment (QSDA), Quantum-Safe (VPN)

Quantum powered Portfolio Optimization

Optimal asset allocation using quantum computing algorithms

Quantum ML for Fraud Detection

Detection of fraudulent transaction with high precision

PoweredQ for Quantum Error Mitigation

Benchmarking and Error Mitigation accelerator for getting the most out of today's NISQ era quantum systems

Explore how to become a Quantum ready enterprise
